

Turf Care Solutions - LaserEdge®

The Lawn Mower Blade That "Cuts Itself Sharp"

[AVAILABLE THROUGH YOUR ORIGINAL EQUIPMENT MANUFACTURER \(OEM\) DEALER NETWORK](#)

LaserEdge – is the only commercial mowing blade that sharpens itself. Utilizing Fisher Barton’s EverSharp™ technology, these hardened steel blades deliver superior performance and actually get sharper during use, resulting in minimal maintenance and maximum profitability for landscaping professionals.

Cutting edge on a standard used blade

Sharpen your profits, not your blades

No more down time to sharpen blades. No more blade sharpening expenses. No more increase in fuel usage due to dull blades. Only uptime and increased profits. At fisherbarton.com/laseredge you can find the "**Savings Calculator**" to find out just how much LaserEdge can save your operation.
